Research Focus

Media ecosystems, information interventions, trust, disinformation, computational social science

I study various facets of media ecosystems, the humans who consume that media, and interventions in between

Education

Rensselaer Polytechnic Institute Troy, NY 2014 – 2020

- Ph.D. in Computer Science
Dissertation: Robust News Veracity Detection - **Robert McNaughton Prize**
Committee: Sibel Adali, Lirong Xia, Stacy Patterson, Dorit Nevo, & Tamar Gordon

Union University Jackson, TN 2010 – 2014

- B.S. in Computer Science, Minor in Mathematics - **Academic Excellence Medal**
- B.S. in Business Administration, Concentration in Management

Vanguard-Sentinel Career & Technology Center Fremont, OH 2008 – 2010

- Information Technology Fundamentals (Vocational Training)

Academic Appointments

University of Tennessee, Knoxville Knoxville, TN 2020 – Present

- CCI Board of Visitors Junior Professor, School of Information Sciences
2024 – Present
- Assistant Professor (Joint), Data Science and Engineering, The Bredesen Center
2023 – Present
- Assistant Professor, School of Information Sciences
2020 – Present
- Senior Fellow, Information Integrity Institute, College of Communications and Information
2025 – Present
- Member, Center for the Dynamics of Social Complexity, College of Arts and Sciences
2024 – Present
- Affiliate, Center for National Security and Foreign Affairs, The Baker School of Public Policy
2023 – Present
- Founding Fellow, Information Integrity Institute, College of Communications and Information
2023 – 2025

Rensselaer Polytechnic Institute Troy, NY 2014 – 2020

- Graduate Research Assistant, Computer Science
2014, 2017 – 2020

- NSF GK-12 Teaching Fellow, Science and Technology Studies
2015 – 2016
- Graduate Teaching Assistant, Computer Science
2015

Cornell University Ithaca, NY 2013

- NSF Undergraduate Researcher, Information Sciences
Summer 2013

Texas Tech University Lubbock, TX 2012

- NSF Undergraduate Researcher, Computer Science
Summer 2012

Relevant Industry/Government Experience

U.S. Army Research Laboratory Adelphi, MD 2017

- Visiting Graduate Researcher, Network Science Research Laboratory
Summer 2017

Steele Martin Jones and Company Jackson, TN 2011 – 2014

- I.T. Administrator
2011 – 2014

Home Medical Products, Inc. Jackson, TN 2011

- I.T. Technician
2011

Notes: I publish across multiple disciplines, each with different practices in terms of author order and venue importance. Across my publications, both journals and computing conferences are the most important. Conference proceedings are considered top-tier publication venues for computing. These conferences are heavily refereed and highly selective venues for top archival research, often exceeding many journals in their selectivity, visibility, and impact. Hence, I note the count of both journal and computing conference publications for each year at the top of each year block. Each output's venue type is also noted in a box by the venue name. All venues are peer-reviewed at some level with exception of *Technical Report* and *Other*.

I also provide other context indicators of venue impact and the type of co-authors for each paper. These include: * indicates student authors; † indicates postdoc authors; **IF** indicates Impact Factor of journal at the time of acceptance, if known; **ICORE** indicates a conference rating (A*, A, B, C) from Computing Research and Education, if available; **AR** indicates acceptance rate of conference or journal, if known; **ABDC** indicates a rating (A*, A, B, C) from Australian Business Deans Council, if applicable; **AJG** indicates a rating (4*, 4, 3, 2, 1) from the Academic Journal Guide by Chartered Association of Business Schools, if applicable, **JCR** indicates Journal Citation Reports ranking within Subject Field, if applicable.

Lastly, there are superscripts next to each output's title which indicate the broad research theme they fall under.
