Notes: I publish across multiple disciplines, each with different practices in terms of author order and venue importance. For example, traditionally in computing, students are first authors, while the lab leader is the last author. Whereas in iSchools, the faculty leader is often the first author. Below I have a legend for various contextual indicators:

- * indicates UTK student authors
- IF indicates Impact Factor of journal at the time of acceptance, if known
- AR indicates acceptance rate of conference or journal, if known
- ABDC indicates a rating (A*, A, B, C) from Australian Business Deans Council, if applicable.
- AJG indicates a rating (4*, 4, 3, 2, 1) from the Academic Journal Guide by Chartered Association of Business Schools, if applicable.
- JCR indicates Journal Citation Reports ranking within Subject Field, if applicable.
