Notes: I publish across multiple disciplines, each with different practices in terms of author order and venue importance. For example, traditionally in computing, students are first authors, while the lab leader is the last author. This practice is not always the case across disciplines. Below I have a legend for various contextual indicators:

- ***** indicates UTK student authors
- **#** indicates lab leader
- **IF** indicates Impact Factor of journal at the time of acceptance, if known
- **AR** indicates acceptance rate of conference or journal, if known
- **ABDC** indicates a rating (A*, A, B, C) from Australian Business Deans Council, if applicable.
- **AJG** indicates a rating (4*, 4, 3, 2, 1) from the Academic Journal Guide by Chartered Association of Business Schools, if applicable.
- **JCR** indicates Journal Citation Reports ranking within Subject Field, if applicable.
